Career Objective

Focusing all my efforts to become an inspiration to others and helping others to achieve the same.

Education

Secondary & Higher Secondary | Knowledge High School, Gujarat
2011 – 2015

Information Technology (B. Tech) | CS Patel Institute of Technology
2015 – 2019

Work Experience

Junior Software Engineer | Crest Data Systems
May 2019 – Present

Inter | Crest Data Systems
Dec 2018 – April 2019

Technical Skills

Machine Learning   Version Control
Python   Javascript   Splunk
Android

Certifications

Programming, Data Structures and Algorithms using Python | NPTEL
Jan – Mar 2017

Machine Learning | Andrew Ng, Coursera
Apr – Jun 2017

Introduction to Machine Learning | NPTEL
Jul – Sep 2017

Introduction to Algorithms and Analysis | NPTEL
Jul – Oct 2017

Deeplearning.ai | Andrew Ng, Coursera
Dec 2017 – Feb 2018

Projects

PyBackup | Technologies use (Python)
Mar 2017 – Present
- Recursive and incremental file backup utility in Python
- Inspired by rsync - available on Linux

Pi - A Telegram Bot | Technologies use (Python)
Nov 2017 – Present
- Bot made for Telegram which entertains group chat

Flaskolorization | Technologies use (Python, Flask, Deep Learning)
Nov 2017 – Oct 2018
- Uses deep learning to colorize grayscale images
Uses flask web framework to provide web user interface

Achievements

Pytorch Scholarship Challenge from Facebook
2018 -2019
- Got a chance to learn pytorch deep learning library for python with amazing udacity community

Splunk Answers Karma Competition Top 5
April 2019
- Listed in top 5 contributors for april 2019 karma competition in splunk answers community
